Education

Carnegie Mellon University

Class of 2019

Bachelor of Design
Minor in Physical Computing
Minor in Game Design
College and University Honors

Skills

Design

Adobe Creative Suite
Figma
Origami Studio

Programming

HTML / CSS / JS
Processing/P5.js
Arduino
C# (Unity)

3D

Unity
Blender
Gravity Sketch
MS Maquette, ShapesXR
Three.js
ARKit, Spark AR

Physical

ID Sketching
Physical Prototyping
3D Printing
Laser Cutting

Experience

Samsung XR | Staff Interaction Designer, Lead

2024 - Present, Mountain View

OS design lead for the AndroidXR glasses projects (monocular and non-display), working with internal hardware and ID teams to develop premium software and hardware experiences. Also collaborating with Google XR and Gemini teams to co-design the developer platform and custom glasses voice model.

Adobe 3D&I | Senior Experience Designer

2020 - 2024, San Francisco

Shipped four 0→1 authoring and collaborative tools in the 3D space (Substance). Tools ranged from staging, immersive sculpting, multi-platform synchronous collaboration, procedural modeling, and more.

IDEO CoLab | Fellow

2020

Designed and prototyped concepts at IDEO's R&D group for emerging technology. Projects ranged from 3D immersive to IoT solutions.

Brain Technologies | Design Prototyper

2019 - 2020, San Mateo

Led UX decisions and prototyped new interaction paradigms for intelligent tools using Origami Studio, Figma, and SwiftUI. This involved inventing voice, gesture, and AI based design patterns.

Cruise Automation | 3D Interaction Designer

2018 - 2019, San Francisco

Designed, prototyped, and programmed 3D interactions for one of the world's leading autonomous driving companies. Used Three.js, Cinema4D, and Sketch.
